Hanover, 27 July 2011 - The Executive Board of Viscom AG (ISIN DE0007846867) is increasing its 2011 revenue and earnings forecasts.

According to the new guidance, the company now expects revenue of between EUR 50 million and EUR 53 million and an EBIT margin of 15 % to 18 % in 2011.
The reason for this adjustment is the large volume of incoming orders and steep rise in recognised revenue in the first half of the year.

This new forecast differs from the targets set by the Executive Board in the official 2011 guidance of EUR 45 million to EUR 47 million in revenue and an EBIT margin of 10 % to 13 %.

The interim report 2011 will be published on 25 August 2011.
