

S6056: XM Upgrade

Tombstone in 3D view

Reliable classification and simple verification through color illumination

Upgrade to XM camera technology

- ✓ Upgrade your "S6056" system from 6M or 8M camera technology to the new XM camera technology.
- ✓ Double your throughput while increasing inspection depth – with one of the fastest AOI camera systems on the market. Additional options such as full 3D measurement or color gradient analyses also are available.
- ✓ Take advantage of our experienced team of application engineers, who will support you in order to update your libraries!

Have we aroused your interest?

Send an e-mail to: orders@viscomusa.com or use the fax reply on the back. We will be glad to give you a quotation tailored to your needs.
