**Viscom SE raises its forecast for incoming orders in the 2026 financial year following a major contract**

Hanover, 4 June 2026 – Viscom SE (ISIN DE0007846867) is revising its annual forecast for order intake in the 2026 financial year. This is due to the receipt of a major order in the field of inline CT inspection, specifically for applications in battery cell inspection. The Executive Board now expects incoming orders to be in the range of € 90 to € 100 million (previously: € 80 to € 90 million). The order will be recognised in revenue in the 2027 financial year. Consequently, the annual forecasts for target revenue of € 80 to € 90 million and for the EBIT-Margin of 2 to 5 % for the 2026 financial year remain unchanged. Accordingly, EBIT of € 1.6 to € 4.5 million is still expected.
